

Women's Centers

Free Wi-Fi

In response to patient requests for this service, we are pleased to announce that we are now offering Free Wi-Fi at our Orlando Women's Center location and we will soon be providing Wi-Fi at all of our Florida offices in the near future.

The addition of Wi-Fi is one of the many new resources we are now providing to enable our patients the opportunity to make the most of their time during their appointment, allowing them to be more productive, and to reduce anxiety and stress during their visit.
